You guys are  
as incredible as  
the rumors  
say.

The witch  
of the forest is  
incredibly strong,  
so it must've  
been difficult to  
defeat her.

Did you guys  
have a secret  
weapon of  
some kind?

...!!

That is...

Chapter 25  
Snow White - 7

!

Riku! You're  
awake!

Are you  
alright?

!!

Your voice is  
as beautiful as  
I'd imagined...

Huh...?

Wha...?

My voice...

The needle in  
the Ah-moon  
Point...

is  
gone...!

It looks like the  
needle was placed so  
that it would destroy  
your Ki flow if  
removed.

That's why  
you were unable  
to pull it out by  
yourself all this  
time, right?

And so I had to  
use acupuncture to  
make your Ki flow  
properly again; to pull  
out the Needle in the  
Ah-moon Point.

I didn't do  
anything else  
while you were  
unconscious, so  
don't worry.

It seemed like that needle had been in there for quite some time, so I applied some medicine on it to help it heal faster. Don't touch it.

Ah...

...Also, you should worry about...

Why?

I

You guys came here to steal something important to me, didn't you?

So why are you helping me right now?

Well... There's  
a reason  
behind that...

No... More  
importantly...

!

How...

How do you  
know the visionary  
technique that's  
been only passed  
down through my  
bloodline?

Ah...

That's...

They fell off  
the cliff?

Yes. That's  
what they said  
when they last saw  
the witch and their  
brother.

I see...

So they  
were unable to  
recover the  
bodies...

Of course...

Snow White...  
That wench  
will not die so  
easily.

There's  
no way she  
would.

She's inherited the talents of both her mother and father, so she's truly skilled.

Because I underestimated her, she inflicted such damage to me,

even though I pierced a needle in her Ah-moon Point before the fight...

But it's fine now...

The only  
medicine that  
can cure me...

Is the flower that  
her mother cared  
for so much...

Now I can have my  
revenge against both  
of those wenches...

Oh, how  
happy I am...

Then what shall  
we do about the  
Seven Knights of  
the Pine Forest?

Now that we've  
got everything we  
need from them...

we should take  
care of them like  
the rest, right?

...Right.

I knew you  
would say that,  
so I took care  
of it already.

As  
expected...

It's very  
uncomfortable  
knowing... that we're  
the only ones feasting  
on this delicious  
food...

When I  
think about the  
youngest brother  
whose body we  
could not even  
find...

It's hard to  
swallow my  
food...

Sixth Brother!!  
How can you eat  
at such a time!!?

I'm sorry,  
Third Brother.

The food is  
so delicious  
that...

Even if  
that's the  
case...

You shouldn't  
scold him too  
much.

Everything  
started because  
of me.

The burden of  
his death should  
fall upon my  
shoulders.

and i will live  
the rest of my  
life honoring his  
memories.

However,  
right now,

we need to rest  
and keep him in  
our thoughts.

Now, let  
us eat and  
cheer up.

Yes...

I understand  
Brother.

Cough...

Cough...

...

Kuugh...

Cough  
...

What the?  
You were eating  
too fast, weren't  
you...

Cough

Cough

Is something  
stuck in your  
throat?

...?

POISONED  
...??

Abstract: **1,2,3,4,5-Pentachlorobenzene** was synthesized by the reaction of 1,2,3,4,5-pentachlorobenzonitrile with sodium metal in *N*-methyl-2-pyrrolidone (NMP) at 100°C. The yield of 1,2,3,4,5-pentachlorobenzene was 80%.
